NEBRASKA DIVISION INTERNATIONAL ASSOCIATION FOR IDENTIFICATION

SPRING 2007

www.neiai.org

LETTER FROM THE PRESIDENT

I hope it has been a good year for you. The Nebraska Chapter of the International Association for Identification (NEIAI) has continued to grow. It has been a good year for NEIAI. Thanks are due to you, each member, and special thanks are due to several people who have gone beyond the call to contribute to the good of the organization. The website has continued to develop, work has been put in place on updating the Constitution and By-Laws, and our membership has continued to grow.

At last count, 109 individuals have pre-registered for the conference. This is excellent and is due to all of our members and a few who have put in extra special effort.

Please take time to give a special thanks to Don Veys, Omaha PD retired and current CSI with Douglas County Sheriff's Office. Don has continued to develop and maintain our website. Kathy Ayers and Mariana Ward have put in mega-hours and as much stress in organizing the conference and processing applications. Do not forget to let them know how much you appreciate their effort. David Carter has re-vitalized our newsletter. This will be the third issue. Please thank Dr. Carter for his efforts. Bill Henningsen has worked with Don Veys to put in place a way to order NEIAI shirts and hats and other products.

The Board of Directors and other members have initiated several new ventures this year. A very successful

venture was offering a training class on needed skills. To this end, Dave Sobotka taught a palm print class. Classes such as these are intended to be a service to our membership. The intent is to offer additional classes in the future. Thank you Dave, for making this training session a successful training venture. Please let someone know if you have an idea for future classes.

The conference looks to be very exciting. Many people have been working very hard to bring in the best available training for the conference. The presenters are there free of charge and might want to take some time to get to know each of them. I can offer to you that there are presenters who have world wide experience, presenters who have testified in local/state/federal/ and world courts, presenters who have testified after being qualified on Daubert hearings, presenters who have published books and articles, presenters who have investigated every crime imaginable, presenters with exceptional technical knowledge, and so on. Check the conference schedule on the website if you doubt this. In addition to topical instruction, we have added presentations by forensic science students of papers and research, and a consortium of representatives from colleges and universities that offer forensic science classes. A very rich experience is presenting itself at this year's conference. I encourage you to take full advantage of the opportunities at this year's conference.

The conference planners and NEIAI Board of Directors do not get paid for

the time and efforts. This is why the cost for membership and the conference is \$20.00. I do not think you can find a better conference anywhere in the world for \$20.00. If you have ideas for future conferences, please let someone on the Board of Directors know about this, and jump in to be a conference worker for next year's conference. We can continue as we do only if all of us jump in to make it happen for us.

The value of an organization like NEIAI is the training from special classes, conferences, and the website. Another very important value is networking with others who are in the same business as you. I encourage everyone to get involved, extend a greeting to those you

know and those you do not know, and make yourself a contributor to our organization. I have often heard that who you meet at conferences turns out to be invaluable down the road. I wholeheartedly agree with this. I can attest that the people I have met at NEIAI have provided immeasurable help in situations I have been involved in over the years.

For those who have contributed so much and to whom I forgotten to mention, thank you. Any omissions are entirely my fault. I sincerely appreciate all who have done so much.

-Larry Barksdale, President

LETTER FROM THE EDITOR

Dear Members,

It is that time of year again! The NEIAI Conference is less than one month away. This is always an exciting time, as conferences provide an opportunity to learn, meet new colleagues, and get reacquainted with those that have not been seen since last year. I believe the NEIAI Conference is particularly special because it provides an intimate forum for those of us in this region. I can honestly say that I have never attended a conference with such a personal and friendly setting. Needless to say, I am quite looking forward to this one.

This year's Conference is evidence of the experience and expertise available in our area. We have the privilege of hearing from professionals associated with the Federal Bureau of Investigation,

Douglas County Sheriff's Department, Lincoln Police Department, Nebraska State Patrol, and the Omaha Secret Service. Complementing this expertise are faculty and students from the College of St. Mary, Nebraska Wesleyan University, Oklahoma State University, Peru State College, and the University of Nebraska-Lincoln.

As a native of Missouri, I am not sure if the State of Nebraska has been on the cutting edge of anything. However, I can't help but think that this year's NEIAI Conference is an accurate representation of what every state is striving for: positive working relationships between in-service professionals and educational institutions. Is this the model for forensic science in the 21st century?

This year's conference also marks the time at which members have an opportunity to step up and assume a leadership role within NEIAI. I strongly encourage each of you to consider devoting some of your time and energy to this fine organization. Most of you probably know that the International Association for Identification is the largest and oldest forensic science/forensic identification organization in the world. Representing

the State of Nebraska within the IAI has certainly been an honor that I hope each of you has the opportunity to experience.

With that, I wish each of you an excellent year and I hope to see you at the Conference.

Respectfully,

-David Carter, Newsletter Editor

IN-SERVICE NEWS

We would like to take the opportunity to welcome (and re-welcome) some individuals back to our area, as several news hires have been made by local agencies.

Lincoln Police Department

Beverly Mazer, Document Examiner. Welcome back to Lincoln!

Nebraska State Patrol

Sarah Meyer, NIBIN Technician.

Douglas County Sheriff's Department

Shannon Tysor, CSI.

In addition, we would like to congratulate **Kent Weber** for completing the ATF Firearms Academy. Apparently, he is also quite a nice guy.

2007 NEIAI CONFERENCE

The Annual Conference of the Nebraska IAI Division will be held on 10-11 April at Mahoney State Park, Nebraska. Here is a copy of the program, which I still subject to change:

Nebraska IAI Training Conference April 10, 2007

Room #1			Room #2			Room #3		
Time	Subject	Presenter	Time	Subject	Presenter	Time	Subject	Presenter
0800-0830	Welcoming Ceremony	Col. Bryan Tuma Superintendent Nebraska State Patrol						
0830-1230	Determining Human from Non-Human Bones and knowing when to call an expert	Melissa Connor, Ph.D. Director; Forensic Science Program Nebraska Wesleyan University	0830-1030	Motorola Mobile Identification System	Motorola Representative	0830-1030	Forensic DNA Collection and Testing	Cammi Strong NSP Crime Lab DNA Section Supervisor
			1030-1130	The Forensic Application of Soil Science	David O. Carter, Ph.D. Department of Entomology University of Nebraska - Lincoln	1030-1130	Ballistic Case Investigations and Development	Ofc. Sid Yardley Lincoln Police Department
			1130-1230	Entomology	Tim Huntington Forensic Entomologist	1130-1230	Overview of Forensic Programs	Reps from: *Nebraska Wesleyan University *College of St. Mary *UNL *Oklahoma State University

1400-1600	Police K-9: Presentation and Demonstration	Lincoln Police Department K-9 Unit	1400-until completed	Crime Scene Certification (All levels)	Bob Hurley Lincoln Police Department			

Registration forms, as well as membership forms, can be found at the NEIAI website (www.neiai.org).

EDUCATION UPDATE

Each of the Institutions listed below will provide an overview of their respective forensic programs from 1130-1230 in Room 3 on 10 April (see program above). Here is some additional information:

College of Saint Mary

College of Saint Mary's first forensic science minor student, Ms. Susan Niedbalski co-authored and presented a poster with Nicole Wall, MFS and Gary Lacey, JD (Lancaster County Attorney) at the 2007 National AAFS Conference titled, "An Overview of Elder Abuse with Assessment Tools for Medical and Law Enforcement Personnel". It will be presented through an official presentation in the student section at the upcoming NEIAI Conference in April.

CSM is also hosting a summer camp for high school female students this summer titled:

CSI:CSM

A Summer Camp of Observation, Deduction, Science and Mystery

Unearth the world of forensics -- practice fingerprint analysis, blood typing, bone identification and crime scene investigation.

Dates: June 25-29

Times: 8-5 p.m., Mon - Fri

Ages: 14-18

Cost: \$200 or \$220 with lunch provided.

http://www.csm.edu/About_Us/Summer_Camps/Academic_Camps/

or contact:

Nicole Wall, Forensic Science Instructor and Camp Coordinator

College of Saint Mary,

nwall@csm.edu or 402-399-2692

College of Saint Mary is a private Catholic institution dedicated to the education of women in an environment that calls forth potential and fosters leadership. For more information please contact, Nicole A. Wall, 402-399-2692, or nwall@csm.edu.

Nebraska Wesleyan University

For information on classes please contact Melissa Connor 402-465-2550, or mconnor@nebrwesleyan.edu.

Peru State College

For information please contact Greg Galardi, 402-872-2397, or GGalardi@oakmail.peru.edu.

University of Nebraska-Lincoln

For information please contact David Carter, 402-472-8285, or dcarter2@unl.edu.

PHOTOGRAPH TIME

Here is an image for your perusal. How would you state the nature of the injury? Can this image be put one to way or enhanced in another way so that it can be used to make an association or an identity.
